Collating & Managing

Methods available to the schemes are limited, for example there are presently no suitable image management tools. Current tools are: Recorder 6, MapMate, Excel & Access. Both BRC and Dipterists Forum may help Schemes with this task.

Homes and keys

All of the Recording Schemes have a home on the Dipterists Forum website. Some of these are quite substantial and may be where you will find **identification keys**. Others have additional homes (red home symbols) which they might prefer (check both).

Collecting

Disseminating

Look for Newsletters on these sites and in the Dipterists Forum Bulletin (<https://tinyurl.com/y3pqcajh>)

Publishing

Open Data publishing to publicly accessible sites is our contribution to conservation & education. Many schemes achieve this through NBN Atlas and GBIF. In 2020 our UK total was 341,353 with an additional four times that figure planned.
